California, nursing in
shaping nursing programs to meet consumers' needs, 325-331
Career development
mentoring models and strategies for hospital staff nurses, 89-97
Caring
skilled nurses' experiences of, 110-118
Case studies
use of in teaching scientific integrity, 40-44
Certified nurse midwives
challenge to the medical monolith by, 138
Chairs, endowed
1995 report of nursing, 320-324
Clinical nurse specialists
example of collaboration with nurse educator, 175-182
Clinical practice
clinical scholarship in, 24-30
critical feminist perspective on Health Belief Model, 246-252
dissemination and use of research findings in, 306-311
example of collaboration with nurse educator, 175-182
mentoring in career development of hospital staff nurses, 89-97
promoting research utilization in, 201
Clinical practicum
activities and interactions of baccalaureate students in, 161-169

Clinical scholarship, 24-30
from observation to scholarship, 25-28
Clinical track
with teaching and faculty practice responsibilities, 78-83
Clinics, nurse-managed
Covey framework for starting, 71-77
see also Academic Nursing Centers
Collaboration
collaborative research through international consortia, 319
example of between nurse educator and hospice clinical nurse specialist/director, 175-182
advantages and disadvantages of, 177-179
benefits of, 181-182
promoting collaboration, 177
in conflict resolution in academia, 7-15
innovative role for school of nursing alumni, 133-134
role perceptions of freshman and senior nursing and medical students about, 119-128
WHO collaborating centers, 3
working together and supporting each other, 318
Community health
Community Health Intensity Rating Scale, 358-363
future of graduate education in nursing, 332-338
Community Health Intensity Rating Scale
as a guide for future practice, 358-363
costing nursing care, 362-363
delegation of care activities, 361-362
education of nurses for community-based care, 361
facilitating future roles, 361-363
opportunities for nursing, 359-360
Compassion
creative as essence of nursing, 317
Computers
telecommunications in nursing education, 230-231
Confidentiality
in peer review, 16-23
legal obligations to HIV-positive patients and health care providers, 188-190
Conflict resolution
in schools of nursing, 7-15
definition and potential, 7
diagnosing conflict, 9
intervention strategies, 9-11
leadership role in, 14
meaning to individuals, 8-9
negotiation strategies, 12
when negotiations fail, 17-19
Connectedness
in effective nurse faculty, 290-298
Consortia, international
collaborative research through, 319
Consultation
innovative role for school of nursing alumni, 133
Consumers, of nursing services
shaping nursing programs to meet needs of, 325-331
academic implications, 328-330
demographics in California, 325-328
Cost, of nursing services
using the Community Health Intensity Rating Scale to determine, 362-363
Covey framework
use of in starting nurse-managed clinics, 71-77
Creative compassion, 317
Critical thinking
by nurses in caring for patients with impaired judgment, 98-109
skills of baccalaureate nursing students, 351-357
Cultural diversity
shaping nursing programs to meet emerging needs, 325-331
Curriculum
case study approach to teaching scientific integrity, 40-44
information-seeking and research utilization to update, 49-57
in future of graduate nursing education, 336-337
need for courses on ethics, 257-258
revolution in nursing education, 137

Deans
dean-bashing, 1-2
when the dean steps down to rejoin faculty, 197-198
Decision making
role perceptions of nursing and medical students about collaborative, 119-128
Demographic changes
shaping nursing programs to meet emerging needs, 325-331
Department of Health and Human Services (DHHS)
Office of Research Integrity in, 35
Diagnostic judgment
heuristics reasoning in, 239-245
Disabilities
survey of baccalaureate nursing programs with students with, 147-153
services provided to, 151
types of disabilities, 149-150
Doctoral degree programs
current approaches for promoting scientific integrity in research, 213-219
adequacy of instruction, 216-217
faculty development in, 216
institutional oversight, 217
use of guidelines and norms, 217
evaluation of a nontraditional, summer-only program, 281-289
strategies for promoting scientific integrity in nursing research, 263-269
at the institutional level, 265
at the school level, 265-266
promotion policies, 266
publication and authorship credit issues, 264-265
role of professional journals, 266-267
role of professional organizations, 267

Education, nursing
campus drinking and professional impairment, 4
critical feminist perspective on Health Belief Model, 246-252
cyclical evolution of in Iran, 58-64
ethics in academe, 261

implications of research on nurses' attitudes about AIDS care, 339-350
information-seeking and research utilization by pediatric nurse educators, 49-57
lived experiences and values of effective nurse faculty, 290-298
managed care as threat to ensuring clinical experiences, 262
politics and the Nurse Education Act, 139-146
respecting nontraditional students, 65-66
revolution in curriculum, 137
role perceptions of nursing and medical students about collaborative decision making, 119-128
shaping programs to meet emerging needs, 325-331
shortage of nursing faculty, 84-88
telecommunications in, 227-232
use of Community Health Intensity Rating Scale to prepare nurses, 361
Educators, nurse
information-seeking and research utilization by pediatric, 49-57
see also Faculty issues
Employees
health services for at academic nursing center, 220-226
Endowed chairs in nursing
1995 report of, 320-324
Entrepreneurial ethics, 6
Ethical issues
academic and scientific misconduct, 31-39
case study approach to teaching scientific integrity, 40-44
entrepreneurial ethics, 6
ethics in academe, 261
ethics of qualitative nursing research, 45-48
in future of graduate nursing education, 335
need for courses on in nursing schools, 257-258
Experiential learning theory
learning styles of nursing students, 170-174
role perceptions of nursing and medical students about collaborative decision making, 119-120

Faculty issues
dean-bashing by, 1-2
development of clinical track, 78-83
endowed chairs in nursing, 320-324
lived experiences, values, and behavior of effective faculty, 290-298
pressures to publish, 315-316
respecting nontraditional students, 65-66
shortage of nursing faculty, 84-88
Faculty practice
consistency of change in development of plans for, 220-226
development of clinical track for teaching and, 78-83
definition of, 80
evaluation of, 82
implementation of, 81-82
income from, 82-83
purpose of, 80-81
establishing an academic nursing center, 203-212
example of collaboration with clinical nurse specialist, 175-182
Fellowships
mentoring through predoctoral to enhance research productivity, 270-275
Feminist perspectives
framework for evaluating values and behavior of effective nurse faculty, 290-298
on Health Belief Model, 246-252
Future of nursing
measuring the essence of nursing as guide for future practice, 358-363
of graduate education in nursing, 332-338

Generational communication
innovative role for school of nursing alumni in, 134
Graduate degree programs
future of, 332-338
community collaboration, 336
concretizing our commitments, 335-337
curricula, 336-337
focus on preparing nurse practitioners, 333-334
incorporating disciplinary strengths, 334
mentoring, 337
response to health care needs, 332-333
substance and ethics of, 335
see also Doctoral degree programs

Health Belief Model
critical feminist perspective of, 246-252
Health care providers
legal obligations to HIV-positive, 183-191
issues of discrimination against, 186-188
Health care reform
future of graduate education in nursing and, 332-338
Health Plan Employer Data and Information Set (HEDIS)
comparison of health plans' performance by, 199
Heuristics reasoning
in diagnostic judgment, 239-245
conditions affecting, 241-242
limitations of, 242-244
History of nursing
effect of immigrants on American nursing, 136
formation of maternal-child health policies, 5
nursism as an age-old concern, 260
HIV, *see* Human immunodeficiency virus
Hospital staff nurses
mentoring in career development of, 89-97
Human immunodeficiency virus (HIV)
baccalaureate students' attitudes toward people with, 299-305
legal obligations to HIV-positive patients and health care providers, 183-191
confidentiality, 188-190
discrimination against health care providers, 186-188
discrimination issues for patients, 185
duty to inform patients, 188-189
federal law against discrimination, 185-186
legal duty to treat, 183-185
patient consent for HIV testing, 189-190

Immigrants, to the United States
Proposition 187 and health care for illegal, 135
role in history of development of American nursing, 136
Information-seeking
and research utilization by pediatric nurse educators, 49-57
Informed consent
ethics of qualitative nursing research, 45-48
Integrity, scientific
academic and scientific misconduct, 31-39
case study approach to teaching, 40-44
current approaches in doctoral programs, 213-219
promoting in nursing research, 213-219, 263-269
role of mentors in promoting in nursing research, 276-280
strategies for, 263-269
International nursing
AACN position statement on licensure of international students, 259
collaborative research through international consortia, 319
cyclical evolution of nursing education and profession in Iran, 58-64
Proposition 187 barring access to care for illegal immigrants, 135
WHO collaboration centers, 3
Iran, nursing in
cyclical evolution of nursing education, 58-64

Journals
peer review process for, 18-19
role in promoting scientific integrity, 266-267
submitting manuscripts to, 315-316
Judgment, impaired
nurses' judgment in caring for patients with, 98-109
Judgment, of nurses
heuristics reasoning in diagnostic, 239-245
in caring for patients with impaired judgment, 98-109

Leadership
role in conflict resolution in academia, 14
Learning disabilities
survey of baccalaureate programs with students with, 147-153
Learning styles
of nursing students, 170-174
role perceptions of nursing and medical students about collaborative decision making, 119-128
Legal issues
implications of advance practice nurses' challenge of physicians' monopoly, 138
obligations to HIV-positive patients and health care providers, 183-191
Proposition 187, 135
Legislation
on discrimination against HIV-positive patients, 185-186
politics and the Nurse Education Act, 139-146
Proposition 187, 135
Licensure
AACN position statement on international students, 259
Lived experiences
and values and behavior of effective nurse faculty, 290-298
Long-term care
skilled nurses' experiences in caring in, 112-113

Managed care
as threat to ensuring clinical experiences for students, 262
Manuscripts
in the bottom drawer, 315-316
Maternal-child health
historical development of public policies on, 5
Mature students
respecting nontraditional students, 65-66
